

ENHANCE YOUR MTP700/MTP750
PORTABLE RADIO
WITH A WIDE RANGE OF
ACCESSORIES

The IMPRES Lite charger is specially designed to provide a more affordable alternative while still retaining most of the desired user-friendly IMPRES™ features. The major exception is that it does not perform the re-conditioning function, hence IMPRES Smart batteries must be calibrated in a full-featured IMPRES charger (single or Multi) to ensure they accurately record, store, and display IMPRES battery usage data.

ENHANCE YOUR MTP700/MTP750 PORTABLE RADIO WITH A WIDE RANGE OF ACCESSORIES

Professional users of portable radios have specific needs, requirements and working conditions within a highly demanding environment. Motorola provides complete two-way radio communication solutions with a wide selection of robust and reliable accessories: batteries and chargers, remote speaker microphones, earpieces, headsets and carry cases. This extensive portfolio of accessories allows professional users to further customise their MTP700/MTP750 portable radio and satisfy their individual communications needs above and beyond those already incorporated in the standard package.

IMPRES™ SYSTEM

The new Intelligent Motorola Portable Radio Energy System consists of an IMPRES™ battery and an IMPRES™ charger. Together they provide an automated, intuitive, self-reliant and self-sufficient battery maintenance system.

Further significant advantages include:

- Maximum number of battery charge and discharge cycles
- No "memory effect"
- Maximises battery operating time between charges
- Batteries cover a wide range of duty cycles, from standard to extended shifts
- Precise prediction of "end of battery life"

IMPRES™ BATTERIES

Lithium Ion

- Approximately 30% lighter and thinner than Nickel Metal Hydride batteries
- Environmentally friendly
- Operating temperature ranges: 0 to +45°C (while charging battery) and -20 to +45°C (while using radio)

Usage time per charge (assuming a 5/35/60 battery cycle):

PMNN4047 1500 mAh Standard Battery (123g): up to 17 hours

Nickel Metal Hydride

- FM approved model for intrinsically safe environments
- Operating temperature ranges: +5 to +45°C (while charging battery) and -30 to +60°C (while using radio)

Usage time per charge (assuming a 5/35/60 battery cycle):

PMNN4048 1200 mAh Battery (200g): up to 16 hours

PMNN4049 1150 mAh FM approved Battery (200 g): up to 15 hours

NLN7967 Wall Mount for Multi-unit Charger

Motorola provides complete two-way radio communication solutions with a wide selection of robust and reliable accessories.

VEHICLE ACCESSORIES

TRAVEL CHARGER

A great travelling companion that ensures constant communication while on the road. Unit includes a voltage regulated cigarette lighter adapter, custom charger base, mounting bracket, and coil cord.

GMLN1027 Travel Charger

VEHICLE ADAPTER

The vehicle adapter is an accessory intended to allow customers to adapt MTP700/750 portables for mobile operation.

- Charges portable radios and provides "hands-free" operation
- 3 basic elements Cradle + junction box + in-vehicle accessories (connection to external speaker, external microphone, external push-to-talk & external antenna)
- Supports Data Accessories
- Models available in the frequency range (380 – 430 MHz and 806 – 870 MHz)

GMLN1040 Vehicle Adapter

AUDIO ACCESSORIES

A range of audio accessories brings key portable radio functionalities directly to the user's ears and fingertips, simplifying radio communication and constantly keeping the professional user in touch with the rest of the team.

Enhanced Remote Speaker Microphone (RSM) with 3.5 mm jack

Robust omni-directional microphone with enhanced remote functionalities such as:

- Vibrating call alert
- Two programmable buttons
- · Emergency button
- Push to Talk PTT
- · Manual volume control

The microphone includes a 3.5 mm jack socket to allow for the connection of discreet earpieces. With the earpiece attached, Duplex Call answering (once programmed in radio) provides the end user with simultaneous voice transmission and reception. Without an earpiece, Duplex Call answering requires the use of the PTT on the radio or the microphone.

RMN5011 Enhanced RSM, short coiled cord -35 cm RMN5012 Enhanced RSM, long coiled cord -70 cm

Remote Speaker Microphone with 3.5 mm jack

This noise-cancelling microphone is particularly suited to high noise environments. With coiled cord (approximately 35 cm), it is an economic and easy to use audio solution. The 3.5 mm jack socket allows for the connection of discreet earpieces.

RMN5013 Standard RSM, short coiled cord 35 cm

PUBLIC SAFETY SPEAKER MICROPHONES

Public safety speaker microphones include straight cord assembly, 3.5mm earjack and a 75mm wideband short antenna. The external antenna provides additional antenna height for better radiation pattern. Plug in the optional receive- only earpiece to enjoy confidential listening without broadcasting the message.

GMCE1083 UHF Public Safety Microphone (Applicable to Hong Kong Police only)

Both the enhanced & standard remote speaker microphones can be used with the following add-on accessories:

Receive-Only Earbud with 3.5 mm jack and coiled cord

Very light and discreet, the earbud is extremely comfortable. It can be worn for extended periods of time, ensuring constant and private radio message awareness without restricting head movements. Replaceable foam ear cushions are available.

AARLN4885 Receive-only earbud with 3.5 mm jack

Ear Microphone System (Voiceducer)

This compact unit picks up the voice through bone vibrations in the ear canal. The miniature earpiece leaves the hands free and face unobscured when worn by rescue and hazard protection personnel, who still retain the ability for direct hearing and speaking. For personnel required to wear breathing apparatus, communications with protective masks are as clear as communications without. And its high speech clarity under noisy environments makes it ideal for high noise environments. Only for Simplex DMO or TMO (not compatible for Duplex operation)

GMLN1106 Ear Microphone with VOX (comes with GMMN1128)

GMMN1128 Ear Microphone for standard noise levels

AARLN4885

GMCE1083

SURVEILLANCE EARPIECES

Comes in 1, 2 or 3-wire design, these surveillance earpieces provide various listening & transmission capabilities for the users.

1-Wire Receive Only Earpiece

Small and discreet. Particularly good when transmission is occasional and permanent radio message awareness is needed. Ideal for public facing roles within the community and hands free communications.

AZRMN4021 1-wire, beige AZRMN4028 1-wire, black

2-Wire Earpiece with Combined Microphone and PTT

The earpiece, small and unobtrusive, provides permanent radio message awareness. The combined microphone/PTT can be concealed about the person e.g. under a lapel, making it ideal for discreet and comfortable radio communication.

AZRMN4022 2-wire, beige AZRMN4029 2-wire, black

3-Wire Earpiece with Separate Microphone and PTT

Ideal when radio communication requires added covertness. PTT button fits easily in the palm of the hand while the clip-on microphone can be discreetly and securely attached inside a collar. The comfortable earpiece is best suited to private listening in quiet environments.

ENMN4017 3-wire, beige ENMN4014 3-wire, black

OPTIONAL ADD-ON SURVEILLANCE **ACCESSORIES**

For extra covertness & comfort, the noise kits with transparent coil tube are ideal for noisy environment, crowd control & VIP protection. Choose also from earshell design which provide secure fitting around the ear in high activity operation. Use with earpiece: AZRMN4021/4028, AZRMN4022/4029 and ENMN4014/4017.

NTN8370 Noise kit, high noise NTN8371 Noise kit, low noise WADN4223 Earshell, large size **WADN4224** Earshell, small size

HEADSET

Lightweight Headset with Boom Microphone and In-line PTT

This light and comfortable headset has an adjustable headband and padded earpiece. The reversible boom microphone means it can be used on either ear while the single earpiece allows permanent non-radio communication awareness. It supports Duplex Call answering once programmed in the radio.

RMN5014 Lightweight Headset with Boom Microphone & In-line PTT

Breeze Headset with Boom Microphone and In-line PTT

This stylish headset, with its innovative flexible behind-thehead design, can be worn under a helmet. Light and discreet, it supports Duplex Call answering once programmed in the radio. The adjustable boom microphone ensures unobtrusive two-way radio communication.

ENMN4012 Breeze Headset with Boom Microphone

& In-line PTT

ANTENNAS

These antennas provide clear and reliable communication for all MTP700/MTP750 portable radio users.

CARRY ACCESSORIES

Soft Leather Case

Nvlon Carry Case

A range of carry solutions allows the MTP700/MTP750 portable radio to be used hands free and safely in the work place.

Hard Leather Case with Swivel 3" Belt Loop

Widely used and popular, this carry case with swivel allows quick and easy release for access to the radio's keypad and screen. Made from the highest quality leather, it is robust, offering added protection for the radio.

PMLN4474 Hard Leather Case with swivel 3" belt loop

Cellular-style carry case, it is very light and provides good

protection and direct access to the radio's screen and keypad.
